

# Hervey Bay State High School – YEAR 9 2024

Name: \_\_\_\_\_ Form: \_\_\_\_\_

Number:

(Office Use only)

## Core Subjects

### English, Mathematics, Science, Physical Education, History, Geography

- Number five (5) preferences for elective subjects. Every effort will be made to accommodate student's highest choices. Popularity of subjects will dictate whether there will be multiple classes of the same subject.
- Due to the nature of the STEM (Science, Technology, Engineering and Maths) curriculum, the STEM elective subject will be available to those students who have achieved a 'B' rating or better for their Mathematics and Science results in year 8.
- Students' academic performance in subjects during Year 8, may be used to determine whether a student will be placed in elective subjects (based on class numbers).

## Electives

Please number your preferences 1 – 5 (**across all subjects, not in each column**).

Subject	No.	Subject	No.
Agricultural Science		Drama	
Animal Husbandry		Home Economics - Food	
Business		Home Economics - Textiles	
Art		INTAD – Manual Arts	
Chinese		Music	
Dance		STEM	
Digital Technologies			

Once a student has chosen their elective subjects, it is assumed that they will continue with these subjects for all of Year 9. This is to allow for the development of a deep level of knowledge and understanding of concepts studied in each subject. If a change is required, this will only occur at the end of Semester 1, ready to commence in Semester 2. This will be communicated to parents/carers and students and timelines will be strictly adhered to.

These electives will only be available if sufficient students are enrolled and staff/resources are available.
